

Valustrap™ – Any Austenitic Stainless Steel Band

- A non-magnetic 200-300 AA grade stainless steel strapping
- Used for securing light weight signs, pipe insulation, cable bundling, and a variety of other lightweight fastening applications
- Good corrosion resistance

C001 / C075 / C400 / J020

See pages 23-25 for full details on TOOLS and their specifications.

Light Duty 304 Band

Type 304 Stainless Steel

This alloy will provide a very good corrosion resistance in industrial atmospheres. Often selected for light duty applications in chemical, power transmission and cable management.
